Rapid Review (RR) Question

Describe in few words the subject of your RR.

Background/Purpose

Please provide context, background and objectives explaining why this question needs to be investigated

Structured question: Criteria for considering studies for this RR

Identify your criteria and provide synonyms. Some RR questions may not fit exactly in this framework and not all components may be relevant to your question.

<p>Population/situation Who or What? Condition or health care problem, demographic characteristics, wider aspect of healthcare delivery</p>	<p>Age? Gender? Ethnicity? Humans?</p>
<p>Intervention How? Therapeutic interventions, diagnostic tools, organization or management of services</p>	
<p>Comparison (not mandatory) The alternative. Usually applicable with therapy questions</p>	
<p>Outcomes What are you trying to accomplish, measure, improve, effect?</p>	
<p>Timing of outcome assessment (not mandatory) Short or long term</p>	
<p>Setting</p>

Do you have relevant articles or reviews for the question?

Yes **No**

Provide citations for relevant articles. Please bring papers, if you have them.

1. Please provide the DOI of the article or the PMID or: First author. Article title. Journal title. Vol. Issue. Pages. Year.

2. Please provide the DOI of the article or the PMID or: First author. Article title. Journal title. Vol. Issue. Pages. Year.

3. Please provide the DOI of the article or the PMID or: First author. Article title. Journal title. Vol. Issue. Pages. Year.

Additional information or comments?

Suggested Databases and Resources

(to be completed by the librarian)

Original research databases

Medicine

- Medline (OvidSP)
- PubMed (recently published records only)
- Embase
- Cochrane Library / CENTRAL
-

Nursing/Allied Health

- CINAHL (EBSCOhost)
-

Behavioral Sciences and Education

- PsycINFO (Ovid)
- ERIC (EBSCOhost)

Other types

Guidelines

- ECRI Institute Guidelines Trust (US)
- CMA Infobase (Canada)
- RNAO Best Practice Guidelines (Canada)
- National Institute for Health and Care Excellence (UK)
- GuidelineCentral (US)
- Specific organizations:

Additional comments?

MEMORANDUM OF UNDERSTANDING

The librarian will

- Attend team meetings as needed
- Design the systematic search strategies and, when appropriate, have it peer reviewed
- Run searches in appropriate bibliographic databases and other resources as appropriate
- Create an EndNote library with all retrieved publications and remove duplicates
- Screen results based on titles and abstracts
- Record keeping of sources, strategies, decisions and data

The Nursing Research Advisor will

- Attend team meetings as needed
- Provide comments on the systematic search strategies
- Final screen of the results
- Critically appraise the studies
- Extract appropriate data
- Synthesize the knowledge
